

Princess Nagger Licor del Café

Princess Nagger Licor del Café is a coffee- flavored liqueur that is made from the finest coffee, Vodka, Brandy and organic Vanilla Beans.

Basic Characteristics of This Product:

Princess Nagger Licor del Café is dark brown in color with a body that is sometimes thicker than most other types of alcoholic beverages. It's not thick to the point of being syrup- like in consistency, but it is thicker than the stronger types of liquor and most other types of liqueur.

This liqueur is sweet, and its taste characteristic is primarily coffee, but there are other tastes that are present as well. Served on the rocks, you can taste a roasted flavor along with a touch of vanilla. Some have suggested that the taste of chocolate is also present.
